CUSTOMER NOTE: Please carefully read the Ultrasky installation guide before filling in order details

HOW TO PLACE AN ORDER FOR ULTRASKY ROOF:

1. Sketch plan & elevations.
(If necessary, attach photos of existing property. Indicate on drawings if any part of project is existing).
2. Mark and caption the positions of all walls, brick piers, windows/doors, cut outs / intrusions.
3. Mark the preferred positions of any
 - a) roof windows
 - or b) rectangular glazed panels.
4. Upon placement of your Ultrasky Roof order, an order confirmation is generated which must be signed and emailed back.

HOW TO MEASURE

Use this information to fill in the COLUMN HEIGHT section in the order form

Please note: If doors are sunk below super-insulated columns then extended claddings may be needed. Please advise when ordering.

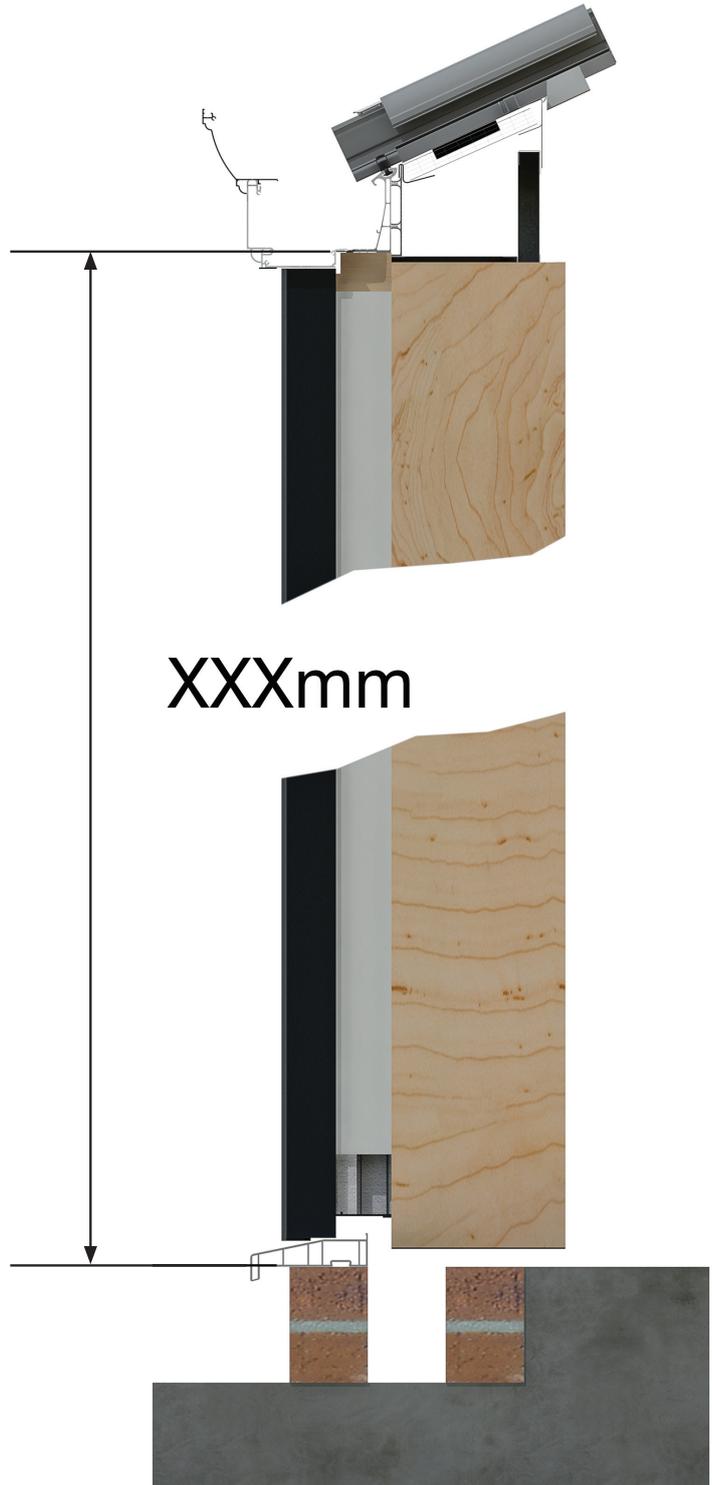

- **COLUMN HEIGHTS SHOULD INCLUDE BOTTOM CILL.**
- **IF USING A TOP ADD ON, PLEASE INCLUDE THIS IN YOUR HEIGHT.** (N.B. Add on should run along top of frames ONLY, NOT on top of the super-insulated column).

.eg. **30mm** ADD ON
 + **2070mm** FRAME
 + **30mm** CILL

= **2130mm** COLUMN HEIGHT

(Ultraframe will notch bottom of column to suit your cill height) State your cill type on p18.

Super-insulated columns

It is Ultraframe's policy to continually seek to improve its products, processes and services, and we reserve the right to change specifications without prior notice. Ultraframe is a trading name of Ultraframe (UK) Limited
